

Datasheet M10w

10-Inch 2-way water-resistant loudspeaker

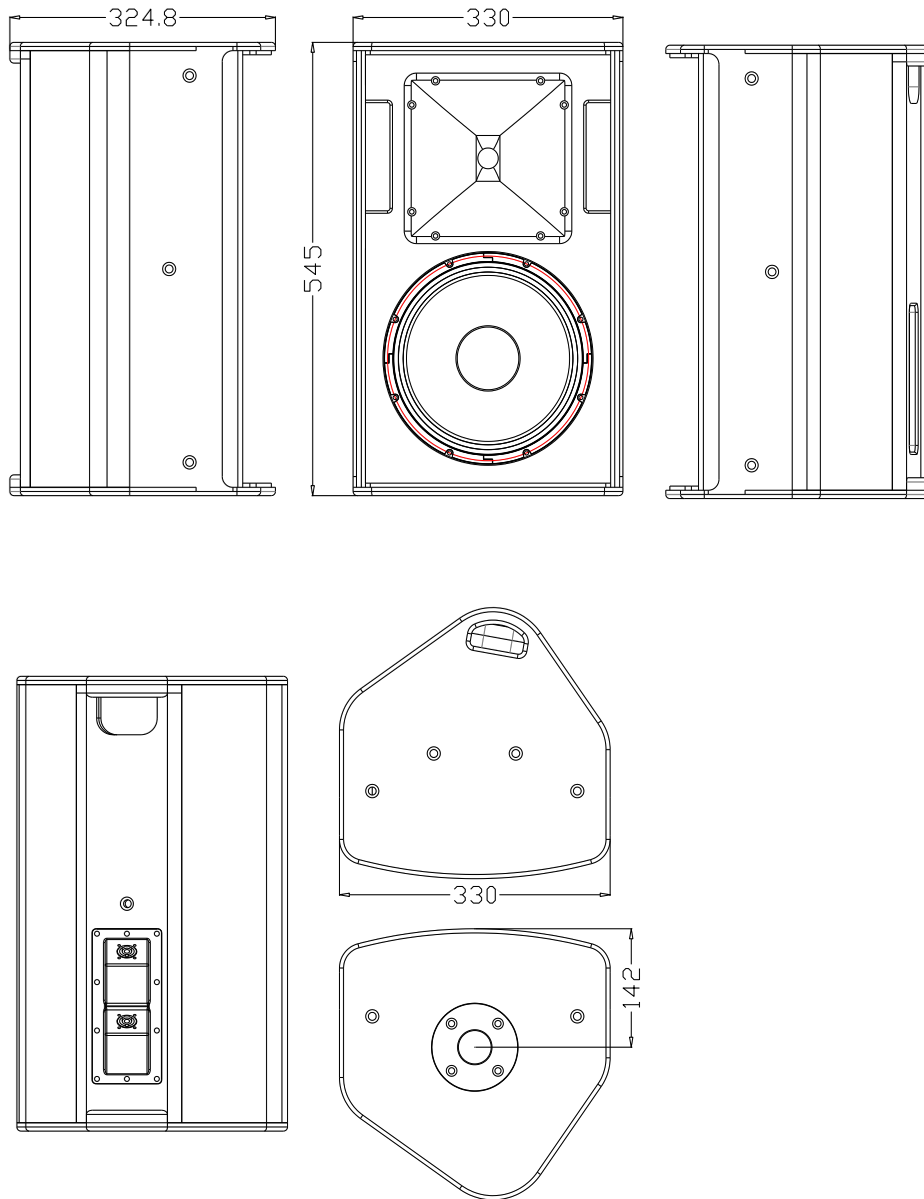

The M10w is a versatile, high-performance loudspeaker, perfectly suited for both live and club music applications. Advanced European transducers ensure exceptional performance in terms of both efficiency and neutrality. Its' ultra-low distortion characteristics help deliver maximum impact, while maintaining a smooth and refined tonal character.

Specifications

Drivers	LF: 10" [250 mm] / 2.5" [65mm] voice coil HF: 1" [25mm] exit / 1.4" [36 mm] voice coil, compression driver
Power capacity continuous / peak	300 / 1200 W
SPL max.	129 dB
Frequency response (-10 dB)	60 – 22000 Hz
Frequency response (-3 dB)	75 – 20000 Hz
Dispersion	90° H x 60° V (Rotatable)
Rated Impedance	8 Ω
Enclosure Dimensions	330 x 325 x 545 mm [13 x 12.8 x 21.5 in]
